**RECEIVED**

Hello,

I live nearby the Creighton Park and come to the park to run on weekends.

I suggest to add the bathrooms and drinking water if you can.

Thank you.

Regards,

Tony

RECEIVED

Hello,

As a resident that lives right next to Creighton I was very disappointed to hear that you intend to install a restroom at this park.

During the meeting, it was clear that those in attendance did not ask for or want a restroom installed. And for good reason- this is a neighborhood park not a destination park. People walk to this park to enjoy the playground, the wide open areas and the well used walking/running path. Installing a restroom turns it into a destination park to drive to and there is NO parking for this park. It will add to our already crowded streets and cul-de-sacs.

And yes, its just a single bathroom stall in a cute building, but when you start installing any type of building, it becomes a visual blight to the landscape. Currently, you can view the whole park without any obstruction-just trees, grass and playground. Restrooms always become an eyesore and there are homes that are very close to this site.

There has been an increase in the transient population and nighttime partiers that pass through this area and the park. Would adding a restroom worsen the problem? There is trash dumped daily in the cul-de-sacs/streets surrounding the park that we have to clean up and I'm sure its not from neighborhood residents.

So save the money for this restroom, use it to increase lighting and eliminate the hidden areas where illicit activities take place. Once you build it, it's there forever.

Keep this a safe neighborhood park...

Regards,

**RECEIVED**

Hi Milpitas City Clerk and City Council,  
My family live close to the Creighton Park. I have attended meetings regarding the Creighton Park Renovation. I have also talked to both Director Lorentzen and Council Barbadillo in these meetings.

First of all, I want to thank Council Bardadillo and Director Lorentzen for doing a great job on this much needed project. From talking to many neighbors, we all feel that the park update is the right project for the city. We are all glad that we are involved and informed throughout the process.

Both my wife (CC'ed) and I love the new look on the plan, and we can't wait to see it comes to live.

I understand that the restroom did not have 100% of the support in previous meeting; but as parents of two toddlers, restroom is a MUST HAVE for us to use the park for any small birthday parties for the kids. I have also talked to a few elders who exercise in the park regularly, they also feel strongly about keeping the bathroom in the plan. I just want to voice our strong support to keep the bathroom in the floorplan.

Once again, I want to thank Council Bardadillo, Director Lorentzen, her team and everyone involved for doing such a good job on this project so far. We can't wait for our kids to play in the new park.

Yours,  
David

Hi Mary/City Council members,

This is regarding feedback for upcoming renovation project for Creighton Park.

Renee Lorentzen has done a great job on communicating with neighbors with the activities associated with park renovation.

What I like to share as a feedback as

Play Ground :-

- No need of Dog Play Area;
- The area marked for Dog Play can be used for outdoor fitness station;
- Move Outdoor fitness station from/near children's play area to Dog Play Area; o Above will allow for additional swings/play structure for kids;
- Near children's play area add a space so young kids can ride bicycles (with training wheels);

Picnic Spots:

- Reduce number of picnic tables due to traffic/parking congestion in the neighborhood;
- Keep it to minimum numbers so it retains neighborhood look;

Play Ground :-

- Add additional shade over play ground as it's non-usable during 2 months of the year ;
- It's only usable by 6:30 pm PST due to direct exposure to sun;
- Retain 1-2 existing structures as memory/historic value (Example: seesaw, smaller size of sand pit);

General Safety :-

- Installation of night vision cameras to be active only during non-park hours (sunset – sunrise);
- Walking Path/Trek make wide enough so people can share for running/walking (seniors/Young toddlers with strollers);
